**Seven Steps in Researching and Writing an Apa Paper** Paula Porter 2009-12 Paula Porter has been writing since the seventh grade, when Mr. Kirk named her editor of the Minden, Iowa, Junior High Newspaper. She has an AA in Journalism from Iowa Western Community College, a BA in Journalism from the University of Nebraska at Omaha, a BA in Elementary Education from Buena Vista University, a MA in English Creative Writing from Iowa State University, and is completing her dissertation for a Ph.D. in Instructional Design for Online Learning from Capella University. Porter is a published poet and essayist, as well as a technical editor and Internet senior editor. When not teaching in the classroom or online at several colleges, Porter can be found cleaning stalls and tack or riding her horses, Odie and Tucker. Writing a research paper is easy, once students understand the process. The focus of this text is to help students learn, not only how to format an APA research paper, but how to "research smart, not hard." Not only does this book provide step-by-step instructions in creating APA templates for Microsoft Word 2003 and 2007, but helps students avoid intimidation by citations and references once they learn the mnemonics for both. By following a few simple steps, the dreaded research paper can be tamed. After teaching freshman English for sixteen years, I was delighted to use Paula Porter's 7 Steps to Researching and Writing an APA-formatted Research Paper for my Composition I and II classes. This book provides instruction in database and Internet research, as well as all the stages of the writing process, the most daunting task for college writers. Porter has combined higher level thinking skills of analysis, synthesis and evaluation with well-explained strategies in steps that lead to success for those who follow them. Dr. Diane Strauser Alvarez Porter has broken down a dense set of information into carefully constructed units designed to facilitate students' easy application of the requirements for APA format and essay writing. Her concise and methodical approach to the material is a boon for any writing course, and her approach utilizes her experience both as a student required to write in this citation style and as an instructor who has

encountered the front lines with her students. Simple in its diction, it is not simplistic in what it affords for student success. AnneMarie Fowler, English and Literature Faculty

*A Guide to College Success for Post-traditional Students* Henry S. Merrill 2017-08-01 The purpose of this book is to assist post-traditional students to achieve success in the Occupational, Workforce, and Leadership Studies (OWLS) Department and develop their individualized pathway to

earn the interdisciplinary Bachelor of Applied Arts and Sciences (BAAS) degree at Texas State University. Applied baccalaureate degrees incorporate higher-order thinking skills and advanced technical knowledge and skills with applied coursework. BAAS students may also earn college-level credits through prior learning assessment (PLA), evaluating and credentialing knowledge and skills gained outside the classroom. The organization and content of this book provides adult degree program faculty and leaders an example of how one required textbook develops and supports the outcomes and activities in all the core courses of an interdisciplinary degree program designed for post-traditional adult learners. The majority of the students earning the BAAS degree are post-traditional students. They are often defined with some or all of these characteristics: over age 25 years old when starting or returning to college, may not have a traditional high school diploma, enroll part-time, work full-time, are financially independent, have dependents other than a spouse and may be a single parent. These students juggle multiple roles and responsibilities in the family, workplace, and community. Post-traditional students bring rich work/life experiences, may be experiencing personal and/or professional transitions, have clear career goals, and often finance their education. They seek flexible programs including online education, PLA, and accelerated course formats. Thus, post-traditional students want active, collaborative, and interactive learning relevant to career and other roles and goals.
