The Secondary English Magazine 2003

Learning to Teach English in the Secondary School Jon Davison 1998 This forward-looking book combines theory and practice to present a broad introduction to the opportunities and challenges of

teaching English in secondary school classrooms. Each chapter explains the background to current debates about teaching the subject and provides tasks, teaching ideas, and further reading to explore issues and ideas in relation to school experience. With reference to new legislation, the chapters suggest a range of approaches to the teaching of reading, writing, speaking and listening, drama, media study, information technology, language study, grammar, poetry, Shakespeare, GNVQ and A Level English Language and Literature. Learning to Teach English in the Secondary School offers principles and practical examples of teaching and learning in the context of the end of the twentieth century when new notions of literacy compete with the demands of national assessment. Taking as its starting point the changing ideologies of English as a subject, the text addresses questions about the nature of teacher education. It raises issues concerning competence-based courses, working with a mentor in school and monitoring the development of a student teacher. Learning to Teach Subjects in the Secondary School series, edited by Sue Capel, Tony Turner and Marilyn Leask.

Jonah und McKay sind seine besten Freunde, und dennoch ziehen sie ihn ständig damit auf, dass er keine Chancen bei Mädchen hat. Erst recht nicht bei Venetia King, dem heißesten Mädchen der Schule. Umso erstaunter sind alle, als Venetia ihn bittet, ein Porträt von ihr zu zeichnen. Ist das etwa ein erstes Date? Doch auch Manjaro, der berühmte Anführer der Gang von South Crongton, beginnt auf einmal, sich für ihn zu interessieren, und bevor Lemar sich versieht, erledigt er kleine Aufträge für ihn. Als der erste Tote im Viertel auftaucht, erkennt Lemar, dass er schon viel zu tief in dem eskalierenden Bandenkrieg steckt und so auf keinen Fall weitermachen kann. Aber wie soll er seinen Kopf aus der Schlinge ziehen, die sich immer weiter zuschnürt?

Intuition Or Evidence? C. V. Gipps 1995 The 'intuition or evidence?' of the title is a theme which runs through the book. Prior to National Assessment teachers' judgements about pupils were largely intuitive. National Assessment has brought about changes in some teachers' practice resulting in assessments now being based more firmly on evidence. Other teachers, however, still prefer to assess intuitively. The changes in government policy and the demands for testing and publication to raise standard also seem to be based on intuition rather than evidence. However, by the end of a three-year study, the authors' evidence shows that a number of headteachers felt that standards of teaching had improved, but not in the simplistic way envisaged by the government.

Who Owns English? Mike Hayhoe 1994 This wide-ranging collection brings together views about the nature of 'English' and its users at an unusual time. Within the United Kingdom - and in some other countries - there is a feeling of unease that language and literacy are in decline and that their central role in developing a sense of national unity and heritage is weakening. Governmental response to this perception is to move towards centralized, state-imposed curricula and assessment, seeking to guarantee standards through legislation. At the same time that the original source of English feels insecure, other countries and cultures become increasingly confident about taking over its use and ownership on their own terms and within their own cultures. Several of the authors here celebrate the diverse ways in which people across the world are developing their own distinctive varieties of English. In exploring these contradictory, defensive and optimistic attitudes towards the inevitability of linguistic and cultural change, the volume's contributors demonstrate the current liveliness and intensity of discussion about this perennial and increasingly debated topic.
