Curiosities and Anomalies in The Federal Income Taxation of Trusts and Estates

Lyndon Maither, B.Comm Kim Once taught a tax course at a Cdn university. I was in it. ... <https://www.youtube.com/watch?v=-70E6bDfM2M&t=4s> ... <https://www.youtube.com/watch?v=KpwWhNznaFY> This is more her book than mine: I wouldn't have written it... <https://www.youtube.com/watch?v=0a9c9JBBGxM> A case-based in-depth analysis of the Canadian Federal Income Taxation of Common-law Private Trusts and Estates that evaluates 1350+ commonwealth tax cases to comment on strengths and weaknesses in the law. I chose from the Commonwealth since they all have to address the same issues with the English law and there is also so much lacking in the Canadian environment: somewhere else you may find more eloquent rationale... Circa 2012 and very verbose but if you analyze the field of case and terms this is what you'll have as well. While the statute has changed here and there, the foundation jurisprudence hasn't, in a slow moving landscape. In tax law there exists the phrase "It goes without saying: check that it's still going." Don't get lost, just check. Keep in mind that this jurisprudential "encyclopedia" is 28 years old so some technicalities have been "smoothed out": interpretive leniency doesn't exist any more. Kim Scott Neufeld, CA explained to her 1987 Tax I class at Concordia U that "Income tax is a law that applies to other law." Of course, I memorized her syllables: she has my complete attention, as I came from, in my opinion, the best. Exuding the most graceful natural wisdom that I've yet to see again. This entire book measures where the ITA does or does not "meet up properly" with the underlying legal environment of common-law (private) trusts and estates. ("If it's possible in trust/estate law, HOPEFULLY, the ITA can capture that instance.") In its entirety, it was grounded on Her model phrase. I spent every effort to try to make it the VERY BEST (couldn't take 2nd place Kim, not with your name, fairest of them all) in the market of... "editorial fluff"... what you yourself could write if you just read the statute, but, a good book on the law of tax must dwell on what Judges say since our Acts are always judged as they meet our fact scenarios: that's how you focus on the statute for a richer appreciation of "poetry" and "rhythm". I strove to talk about what the others didn't expand on: and I read "everything" to do so. (I aimed to "Make it so, that there are almost no unanswered questions." because chances are there is a case that speaks about the issues, even if you haven't found it yet.) This is a case-book: "You think what you want: this is how Judges have seen it, and they're those who determine the issues." While this is now a bit out of date - circa 2012 - I hope you can always remember that phrase of Kim's... and maybe go "camp-out" in law libraries to "live on your own frontiers, where your Universe is evolving", and write your own: this took me 5-6 years to write starting from scratch, with no great aptitude, "vacuuming" the Chancellor Day Hall Library, save for being in love: hopefully it will take you less than a year to fathom out the streams of juris. to see how legal thought IS on this environment. ...this is Ms. Kimberly E Neufeld CA's book. I wouldn't have written it without meeting her. In April of 1987. I realized then that I'd never see a woman more beautiful in the ways I "sense" women. Sharp curious brain, great drive, assertiveness capable of defending herself... and drop-dead good looks. More iconic in concept than Mary Tyler Moore. But what set the hook in me about Kim is that with all of the previous, she never talked down to me, from clear cosmopolitan sophistication, to a country bumpkin like me who in '87 was just starting his study path. In fact, she only encouraged me, thru her standards and her conduct, massively. I wanted to get to know Kim more, but she was a teacher and I was a student, and that's the way things would remain: appropriate. Wishing to please Kim, did cause me to live in the McGill Law Library, and some in Ottawa [WHERE ALL THE GOOD BOOKS ARE] in writing this and the one of mine on partnerships/joint ventures, looking for certainty. Kim went on after Concordia to go through McGill Law where she was also an Editor of its Law Journal and ended her legal career as a top attorney placement Director with Mestel in NYC and across the USA. Not bad for a B.Comm Honours out of Winnipeg eh? Who applied herself and stayed well above the muck. You're able to look Kim up on LinkedIn, I haven't spoken with her in decades but as with everything I've done in my life, this small book was always caused when I went looking for certainty in

law libraries - running out the variables in case streams - which prepared me for, everything. While thinking of her. <https://www.youtube.com/watch?v=Hs4RFEVLF2g> ...now, don't you wish you would have been in Kim's 1987 Tax class? https://www.youtube.com/watch?v=cHjWJnLL2C0&list=RDcHjWJnLL2C0&start_radio=1 Hard copy available in the Law Faculty Libraries of University of Saskatchewan and Western U.

Fundamentals of Corporate Taxation Stephen A. Lind 2005 Clear, concise, and engaging, Fundamentals of Corporate Taxation teaches the fundamentals of a highly complex subject with skillfully drafted problems, explanatory text, and a selective mix of original source materials. Important new highlights include discussions on the impact of reduced tax rates on qualified dividends, new rules limiting the transfer or importation of built-in-losses, and the response by courts and the Internal Revenue Service to corporate tax shelters. The sixth edition also contains new material on corporate reorganizations and S corporations, rulings on Section 351 control requirements and corporate divisions, and more permissive eligibility requirements and other new statutory rules.
