**Perspectives on the Restoration of the Mississippi Delta** John W. Day 2014-05-16 Human impacts and emerging mega-trends such as climate change and energy scarcity will impact natural resource management in this century. This is

especially true for deltas because of their ecological and economic importance and their sensitivity to climate change. The Mississippi delta is one of the largest in the world and has been strongly impacted by human activities. Currently there is an ambitious plan for restoration of the delta. This book, by a renown group of delta experts, provides an overview of the challenges facing the delta and charts - a way forward to sustainable management.

Mobile Learning in  
Higher Education in the  
Asia-Pacific Region

Angela Murphy 2017-07-06

If mobile technologies are to be effectively used in education, how do we best implement sustainable mobile solutions for teaching and learning? The aim of this handbook is to support educators and policy makers who are

investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments. Authors from sixteen countries across the Asia-Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives. These projects focus on a variety of aspects of mobile learning innovation, from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems, to the large-scale, interuniversity implementation of technologies and pedagogies to support mobile learning. Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system, encompassing the student perspective, the

educator perspective, technical processes, policies and organisational strategy, and leadership. The book also offers a unique perspective on the integration of mobile learning innovations within the educational, political and cultural environments of Asia-Pacific countries.

**Linking Ecosystem  
Function to Microbial  
Diversity** Anne E.  
Bernhard 2016-10-20  
Understanding the link  
between microbial  
diversity and ecosystem  
processes is a  
fundamental goal of  
microbial ecologists,  
yet we still have a  
rudimentary knowledge of  
how changes in diversity  
affect nutrient cycling

and energy transfer in ecosystems. Due to the complexity of the problem, many published studies on this topic have been conducted in artificial or manipulated systems. Although researchers have begun to expose some possible mechanisms using these approaches, most have not yet been able to produce conclusive results that relate directly to natural systems. The few studies that have explored the link between diversity and activity in natural systems have typically focused on specific nutrient cycles or processes, such as nitrification, denitrification, and organic carbon degradation pathways, and the microbes that mediate them. What we have learned from these studies is that there are often strong associations between the physical and chemical features of the environment, the composition of the microbial communities,

and their activities, but the rules that govern these associations have not been fully elucidated. These earlier studies of microbial diversity and processes in natural systems provide a framework for additional studies to broaden our understanding of the role of microbial diversity in ecosystem function. The problem is complex, but with recent advances in sequencing technology, -omics, and in-situ measurements of ecosystem processes and their applications to microbial communities, making direct connections between ecosystem function and microbial diversity seems more tractable than ever.

*Class, Mass, and Collective Arbitration in National and International Law* S.I. Strong 2013-10-22 Class arbitration first developed in the United States in the 1980s as a means of providing large numbers of individuals with the opportunity to assert their claims at

the same time and in the same proceeding. Large-scale arbitration has since spread beyond U.S. borders, with collective arbitration being seen in Europe and mass arbitration being used in the international investment regime. Class, Mass, and Collective Arbitration in National and International Law considers all three forms of arbitration as a matter of domestic and international law, providing arbitrators, advocates and scholars with the tools they need to evaluate these sorts of procedural mechanisms. The book covers the best-known decisions in the field - Stolt-Nielsen S.A. v. Animal Feeds International Corp. and AT&T Mobility LLC v. Concepcion from the U.S. Supreme Court and Abaclat v. Argentine Republic from the world of investment arbitration - as well as specialized rules promulgated by the American Arbitration Association, JAMS and

the German Institution of Arbitration (DIS). The text introduces dozens of previously undiscussed judicial opinions and covers issues ranging from contractual (or treaty) silence and waiver to regulatory concerns and matters of enforcement. The book discusses the entire timeline of class, mass and collective arbitration, ranging from the devices' historical origins through the present and into the future. Lawyers in a wide variety of jurisdictions will benefit from the material contained in this text, which is the first full-length monograph to address large-scale arbitration as a matter of national and international law. Qualification  
Physical literacy in the  
Czech Republic Jana  
Vašíčková 2016-12-19 The  
present publication  
introduces the concept  
of physical literacy.  
The kind of literacy is  
essential because it  
affects individual  
lifestyle and, in turn,  
also lifestyle of  
society. A physically  
literate person is  
responsible for his/her  
own health and has  
physical abilities,  
skills, knowledge and  
self-confidence allowing  
him to take part in and  
enjoy life-long physical  
activities. Therefore,  
we have attempted to  
provide readers with a  
compact insight into the  
issue. By means of  
research findings we  
would like to promote  
dissemination of this  
concept to wider  
audience. We present  
findings regarding the  
adolescents' motivation  
for physical activity,  
attitude of pupils  
towards variously  
focused physical  
education lessons,

actual levels of  
physical activity in  
adult population etc.

Cultural Knowledge and Values in English Language Teaching Materials Tao Xiong  
2022-05-13 This book provides a contextualized and balanced look into the timely topic of values in English Language Teaching (ELT) materials with a primary focus on the Chinese context. It features three distinct conceptual and methodological perspectives, namely, perceptions of stakeholders such as material writers, teachers and students, multimodal construction of values, and textual representation of values. It is a valuable resource for those interested in the social, cultural, moral, and ideological dimensions of English education in general, and in the textual and multimodal construction

of values in language teaching materials in particular.

Mathematical Mindsets Jo Boaler 2022-02-23

Reverse mathematics trauma and find a universal blueprint for math success In *Mathematical Mindsets: Unleashing Students' Potential through Creative Math, Inspiring Messages and Innovative Teaching* mathematics education expert and best-selling author Jo Boaler delivers a blueprint to banishing math anxiety and laying a foundation for mathematics success that anyone can build on. Perfect for students who have been convinced they are naturally "bad at math," the author offers a demonstration of how to turn self-doubt into self-confidence by relying on the "mindset" framework. *Mathematical Mindsets* is based on thousands of hours of in-depth study and research into the most effective—and ineffective—ways to teach math to young people. This new edition also includes: Brand-new research from the last five years that sheds brighter light on how to turn a fear of math into

an enthusiastic desire to learn Developed ideas about ways to bring about equitable grouping in classrooms New initiatives to bring 21st century mathematics to K-12 classrooms *Mathematical Mindsets* is ideal for K-12 math educators. It also belongs on the bookshelves of the parents interested in helping their K-12 children with their math education, as well as school administrators and educators-in-training.

**Securing the Future of  
Afghanistan** Great  
Britain: Parliament:  
House of Commons:  
Defence Committee  
2013-04-10 The  
Committee's report  
focuses on the planned  
withdrawal of combat  
troops at the end of  
2014 and the transfer of  
responsibility for

security to the Afghan  
National Security  
Forces. It also examines  
the progress towards a  
secure and stable  
Afghanistan within the  
wider region, including  
Pakistan, and the plans  
by the UK, NATO and  
other allies for a  
smooth transition of  
responsibility for  
security to the Afghan  
Government and the ANSF.  
Securing the future of  
Afghanistan requires the  
concerted efforts of all  
the Afghan people;  
regional neighbours, in  
particular Pakistan; the  
USA; NATO and other  
coalition partners. In  
the process of  
establishing a peaceful  
and functioning  
Afghanistan, the  
Committee calls for  
evidence of: (i) At  
least the start of an  
Afghan-led peace  
settlement with the  
insurgency; (ii) Open  
and free elections;  
(iii) An appropriately  
trained and equipped  
ANSF with continuing  
financial support; (iii)  
A strong judicial system  
which protects the human  
rights of all Afghans;

(iv) Economic development aid to continue in support of the well being and safety of all sections of society; (v) Effective measures to tackle corruption, drug production and the drug trade. The MoD needs to work with international partners and the ANSF to identify ways of meeting significant gaps in necessary capabilities such as helicopters and close air support and medical care from 2015. The Defence Committee concludes that at the end of UK operations the best the UK will be able to do is to withdraw in good order and engage with external partners to improve Afghanistan's future prospects.

that contributed to victory in the revolutionary war, particularly the Front's capacity for intellectual leadership. Charting its challenges and limitations, he analyses how the EPRDF managed the complex transition from a liberation movement into an established government. Finally, he evaluates the fate of the organization's revolutionary goals over its subsequent quarter-century in power, assessing the strengths and weaknesses the party has bequeathed to the country. Laying the Past to Rest is a comprehensive and balanced analysis of the genesis, successes and failings of the EPRDF's state-building project in contemporary Ethiopia, from a uniquely authoritative observer.
