In the beginning, before Thread, before the Dragons, before the Holds and the Weys and the elite Dragonriders of Pern, was just the great ships gliding through space with nearly six thousand colonists prepared to tackle the mighty task of beginning a new world on a strange planet. It was a jewel of a planet, with rivers and seas and mountains, and breathable air and growing things. Then came the terror. The strange, unidentifiable circles in the grass suddenly revealed a meaning, and every living thing was at risk. Many died - a horrible and consuming death. All resources, every man, woman and child had to fight the terrible nightmare of Thread. But a new creature was about to save the planet. From the delicate fire lizards a new life was born - a new symbiosis between man and beast...

A YOUNG GIRL'S DESTINY AWAITS...
Every two hundred years or so, shimmering Threads fall from space, raining death and black ruin on Pern. The great dragons of Pern hurl themselves through the beleagured skies, flaming tongues of fire to destroy deadly Thread and save the Planet. But it was not Threadfall that made young Menolly unhappy. It was her father who betrayed her ambition to be a Harper, who thwarted her love of music. Menolly had no choice but to run away. When, suddenly, she came upon a group of fire lizards, wild and smaller relatives of the fire-breathing dragons, she let her music swirl around them and taught nine of them to sing. Suddenly Menolly was no longer alone -- she was Mistress of Music and Ward of the dazzling fire dragons. The Dragonriders of Pern series continues in Dragonsinger.

Some fourteen hundred turns after men first came to Pern rode Moreta, on her great golden dragon, Orlith. It was towards the end of the Pass of the Red Star - a time when every living creature on Pern was threatened by Threadfall - when the courage and daring of dragons and their riders was all that kept the planet from extinction. And then, at the height of the battle against Thread, came a new and terrible evil. Moreta, in one last superhuman endeavour, was to save her people, and become the greatest legend of dragonlore until the end of time.

**Reading by Starlight** Damien Broderick 2005-06-29 Reading by Starlight explores the characteristics in the writing, marketing and reception of science fiction which distinguish it as a genre. Damien Broderick explores the postmodern self-referentiality of the sci-fi narrative, its intricate coded language and discursive 'encyclopaedia'. He shows how, for perfect understanding, sci-fi readers must learn the codes of these imaginary worlds and vocabularies, all the time picking up references to texts by other writers. Reading by Starlight includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac Asimov, Arthur C. Clarke, Brian Aldiss, Patrick Parrinder, Kim Stanley Robinson, John Varley, Roger Zelazny, William Gibson, Fredric Jameson and Samuel R. Delaney.

Anne McCaffrey 2012-07-31 The inhabitants of Botany - a mixture of humans and extra terrestrials - had managed to build a thriving and productive world out of what had originally been intended as a slave planet. And now they had plans to try and overthrow the terrible Eosi, who for centuries had existed by subsuming members of the Catteni race, living in their bodies and ruling space through them. And the Botanists had received mysterious and unexpected help from the great beings they knew only as 'Farmers' - for the Farmers had thrown a huge impervious space bubble round Botany. Even as the Eosi ships tried to pulverise the rebellious planet, the bubble held firm. But, safe though they were behind the protective device, Kris Bjornsen, Zainal and all of the Council knew they had to go out and destroy the Eosi on their own ground. It fell to Zainal to risk his life in a desperate and daring mission to vanquish the monster life forms forever.

**Anne McCaffrey** Robin Roberts 2009-09-28 Anne McCaffrey: A Life with Dragons is the biography of a writer who vividly depicted alien creatures and new worlds. As the author of the Dragonriders of Pern series, McCaffrey (1926–2011) was one of the most significant writers of science fiction and fantasy. She was the first woman to win the Hugo and Nebula awards, and her 1978 novel The White Dragon was the first science-fiction novel to appear on the New York Times hardcover bestseller list. This biography reveals a fascinating and complex figure, one who created and re-created her fiction by drawing on life experiences. At various stages, McCaffrey was a beautiful young girl who refused to fit into traditional gender roles in high school, a restless young mother who wanted to write, an American expatriate who became an Irish citizen, an animal lover who dreamed of fantasy worlds with perfect relationships between humans and beasts, and a wife trapped in an unhappy marriage just as the women's movement took hold. Author Robin Roberts conducted interviews with McCaffrey, her children, friends, and colleagues, and used archival correspondence and contemporary reviews and criticism. The biography examines how McCaffrey's early interests in theater, Slavonic languages and literature, and British history, mythology, and culture all shaped her science fiction. The book is a nuanced portrait of a writer whose appeal extends well beyond readers of her chosen genre.
